

*Welcome* to Collaborative Design.

**Who we are:** We are an Interior Design Studio. We help people with all aspects of home and business interiors. For example we create floor plans and assist with material selections: siding, roofing, trim, carpet, tile, window coverings, furniture / art selections and placement. Our expertise is in the details. For some homes we design layout, custom cabinetry and fireplace surrounds. Other homes we decorate with furniture, window treatments and accessories. At Collaborative Design our name says it all. We believe in working with our clients to help them achieve a space that is completely theirs.

**What can I find in your studio?** We have a large selection of carpets, area rugs, wallpaper, fabrics and tile (granite, marble, ceramic), framed art, window coverings, lamps, accessories and furniture from various manufactures. For example: Pearson, Hickory White, Bernhardt, Hickory Chair, Stanley, Hooker and other manufacturers.

**What are our fees?** Our fees vary depending on the type of project and the designer. Design time spent selecting products purchased through Collaborative Design are not billed.

**What is the difference between the Collaborative Design Studio and a furniture store?**

Our selections represent what the furniture manufacturer makes. We offer many, many manufacturers. By providing options we feel that each person can make the right decision for them. Our interior designers are familiar with materials and finishes and we want to ensure that their furniture is comfortable and will last.

Thank You for your interest,

*Andrea Koehnlein*
